For 30 years, Fastcorp and our collaborative companies have led the unattended retail field for high value FMCG products from ice cream and cryogenic snacks to health foods to vape, CBD, alcohol, and ammunition.

As a global supplier we partner with the most reliable software, payments, and ID verification services. This has enabled over 30,000 Fastcorp machines to provide customers with everything from ultra-cold snacks, to the safe & secure retail of regulated products such as ammunition and medical marijuana.

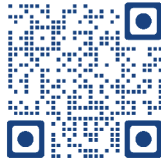

As one of a collaborative group of USA-based manufacturing companies we offer the quality assurance that comes with a vertically integrated sheet metal fabrication and contract manufacturing group.

The highly experienced and solutions-focused Fastcorp team will provide you with a comprehensive system, engineered to delight your customers, enhance your venues, and improve your bottom line.

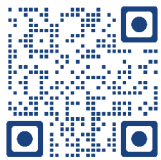

Join the world's most successful brands with DIVI - at the intersection of traditional retail, e-commerce, and automated service.
